

Let's invent the future !

UCA Partner "Plateformes d'Assistance à la Recherche, aux Technologies et aux Entreprises" is a service of the Clermont-Auvergne (UCA) that contributes to the scientific policy of the University and ensures to researchers and entreprises easy access to cutting-edge equipments, facilities and expertises.

Our missions

To provide technological and/or consulting expertises for academic and private institutions

To be the prime point of contact for private entreprises, to find among the UCA Partner's platforms the best solution in response to user requests and to offer a one-stop access for contract managements

To help researchers and customers for the drafting and the management of custom quotes and contracts of service

[FIND EXPERT, EQUIPMENT OR SERVICES](#)

Our areas of expertise

UCA Partner brings together more than thirty in-house technological platforms in six areas of expertise covering a large variety of scientific fields from social science, health, environment, geomatics, biology, physico-chemical analysis, imaging, materials... UCA Partner "Plateformes d' Assistance à la Recherche, aux Technologies et aux Entreprises" is a service of the Clermont-Auvergne University (UCA) that contributes to the scientific policy of the University and ensures to researchers and entreprises easy access to cutting-edge equipments, facilities and expertises.
