

# Our areas of expertise

**UCA Partner brings together more than thirty in-house technological platforms in six areas of expertise covering a large variety of scientific fields from health, environment, geomatics, biology, physico-chemical analysis, imaging, materials... UCA Partner "Plateformes d'Assistance à la Recherche, aux Technologies et aux Entreprises" is a service of the Clermont-Auvergne University (UCA) that contributes to the scientific policy of the University and ensures to researchers and enterprises easy access to cutting-edge equipments, facilities and expertises.**
