

UCA PARTNER

About us

UCA Partner "Plateformes d'Assistance à la Recherche, aux Technologies et aux Entreprises" is a service of the Clermont-Auvergne University (UCA) that brings together more than thirty in-house technological platforms in seven areas of expertise covering a large variety of scientific fields from social science, health, environment, geomatics, biology, physico-chemical analysis, imaging, materials, ... It contributes to the scientific policy of the University and ensures to researchers and enterprises easy access to cutting-edge equipments, facilities and expertises.

Missions

- To provide technological and/or consulting expertises for academic and private institutions,
- To be the prime point of contact for private enterprises, to find among the UCA Partner's platforms the best solution in response to user requests and to offer a one-stop access for contract managements.
- To help researchers and customers for the drafting and the management of custom quotes and contracts of service.
